FAQS

Q: What are the benefits of this protein supplement?

A: Protein isn't just about muscle building and repair. Because it's filling, protein helps curb cravings, making it easier to maintain a healthy weight. Our formula also goes beyond protein, with a nutrient profile that includes vitamins, minerals, fiber, antioxidants, and essential fatty acids.

Q: Does this product provide complete protein?

A: Yes. Our synergized blend of pea and rice proteins supplies all nine of the essential amino acids needed for complete protein. It delivers the high-protein benefits of a dairy/whey protein in a vegan formula. It's great for people wanting to build muscle, stay in shape, or simply make it part of a healthy lifestyle.

Q: What are some of the ways to use SunFit® Protein Plus?

A: You can add it to NuPlus®, VitaShake®, smoothies, and shakes for a creamier consistency and an extra protein punch. You can also sprinkle it on oatmeal, yogurt, cereal, or other foods as desired. Its neutral flavor makes it easy to add to just about anything.
